

Reflecting on 30 years in Oklahoma

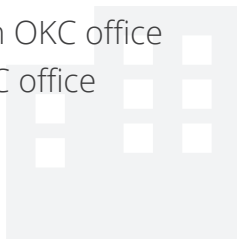

Since opening our first Oklahoma office 30 years ago, Garver has helped shape communities across the state—from the highways you drive on and the bridges you cross to the water you drink and the airport runways that connect you to exciting adventures and loved ones.

EXPANSIONS

- 1993:** Garver opens first office in Tulsa
- 2004:** Garver opens Norman office
- 2018:** Garver opens downtown OKC office
- 2022:** Garver opens South OKC office

COMPLETED

2,000+ Projects

GarverGives

Giving back to Oklahoma

For us at Garver, it goes beyond infrastructure projects. We're proud to have invested our time and resources back into Oklahoma through grants, employee giving, and volunteerism for three decades. One of our core values is giving back to the communities we call home. Our corporate giving program, GarverGives, which officially began in 2015, is the formalized and fully realized version of this giving back.

A BRIGHT FUTURE AHEAD

We've accomplished a lot together over the last three decades, and Garver continues to be committed to the future of Oklahoma—because we're Oklahomans. Here's to the next 30!

SINCE 2015...

OVER

\$200k invested in Oklahoma
